

# Mississippi Block

12" finished size

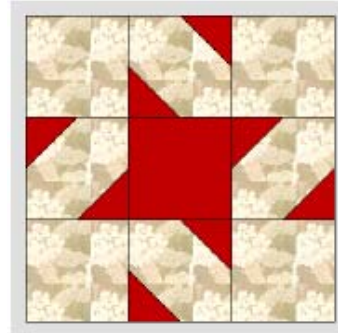

4 1/2" x 4 1/2" Make 1 square

4 1/2" x 4 1/2" Make 8 squares

2 1/2" x 2 1/2" Make 8 Squares

First you are making the 4 Squares with the two triangles on.

Place the little red 2 1/2" x 2 1/2" square on the corner of the 4 1/2" x 4 1/2" background square.

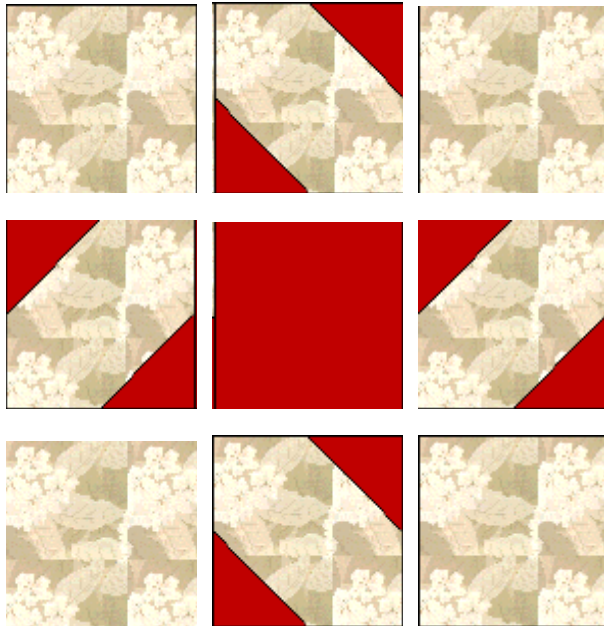

Then sew one seam from corner to corner of the little square.

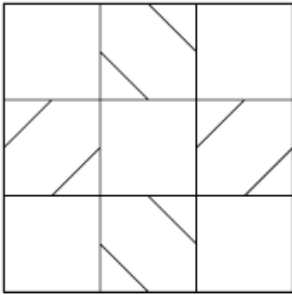

Then fold the one half of the little square toward the tip of the corner as shown on the picture. Make 4 of these squares.

Now piece the squares together in rows and then sew the rows together. And viola you have a 12" Mississippi Block. ☺

If you want to piece with template you can use these ones. The 1/4" seam is added to the templates.

Block #1  
12 inch block  
1/4 in. seams
