

The Green  
12" finished block

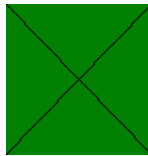

You need 4 different colors. Green, Light green, blue and orange.

You are going to make:

- 6 Small Green triangles
- 4 Light green triangles
- 4 Big blue triangles
- 4 Small blue triangles
- 2 Big light green triangles
- 4 Orange triangles
- 2 Light green rectangles

How to do the square:

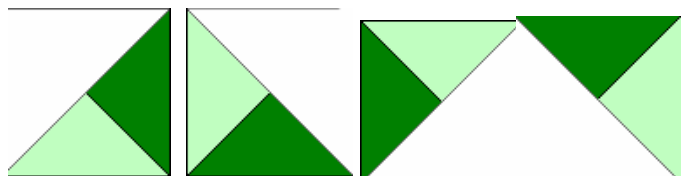

First cut 2 squares of Green fabric  $5 \frac{3}{8}'' \times 5 \frac{3}{8}''$

Then cut the squares on both diagonals like a X

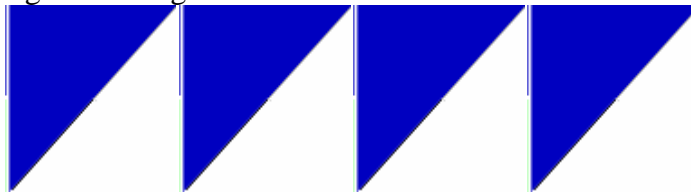

You will have two triangles extra. You can use them in a scrap quilt or make some more of the Green block.

Now cut one square  $5 \frac{3}{8}'' \times 5 \frac{3}{8}''$  Then Cut the Square on both diagonals like an X and you have the 4 light green triangles you need.

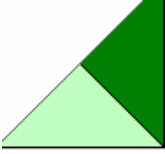

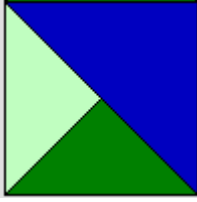

Sew the triangle together as show on the pictures

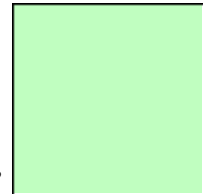

Now how to make the 4 big blue triangles. Cut 2 blocks 5" x 5" and cut both block on one diagonal.

And you get 4 triangles.

Sew one  together with one  so you get  Make in all 4 of this Squares.

You are now going to make the middle light green square. Cut one block 4 1/2" x 4 1/2"

Now cute the 2 light green rectangles by cutting one square 4 1/2" x 5" Then cute this block in two half

so you get 2 rectangles 4 1/2" x 2 1/2"

Now you are going to cut the small blue triangles, by making One Square 5 3/8" x 5 3/8" and cut the square on both diagonals like and X then you have your 4 blue triangles,

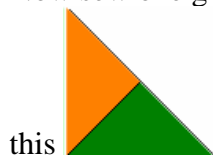

Now make one orange square 5 3/8" x 5 3/8" and cut this square one the two diagonals like a X and

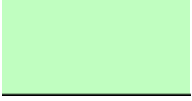

you have your 4 orange triangles.

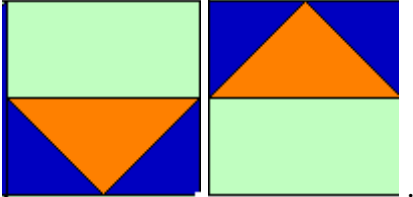

Now sew one green triangle and one orange together.  and make one more who looks like

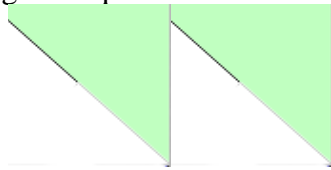

Now sew 2 blue triangle to one orange triangle so you get  do that one more time so you have two of them.

Now sew  together with  so you get 2 squares looking like this:

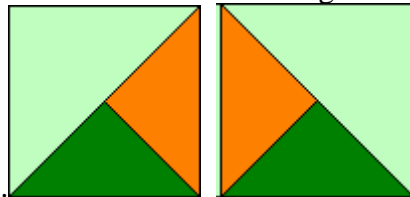

Now make one light green square 5" x 5" and cut the square once on the diagonal so you have 2 light

big green rectangles.

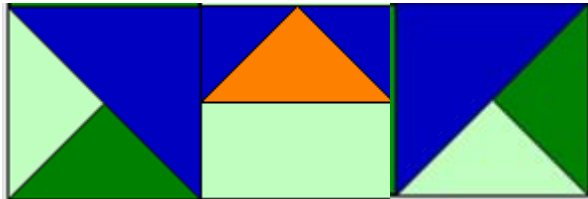

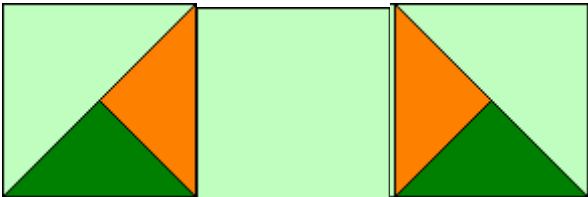

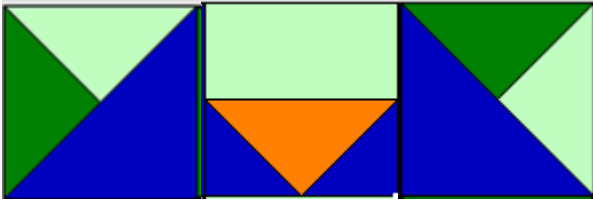

Now for the last 2 Squares you sew one  together with a  do that one more time

so you have this two squares

Now sew the block together in rows.

And sew the rows together so you get the square to look like this:
